Capability Statement

Mission:

To provide Cloud based solutions and services utilizing Amazon Web Services (AWS) and AWS GovCloud (ITAR and FedRamp compliant) that is infinitely scalable, more reliable and cost effective. By utilizing the IaaS (Infrastructure as a Service) within the Cloud, we are able to scale capacity to any project computing needs, monitor and provide support without the need of purchasing, setting up or maintaining hardware in a typical data center. This shortens the project time greatly by shifting the focus to architecting and designing the solution rather than on physical assets.

Services Offered:

- Cloud Consulting
- Automation and Deployment
- IaaS and SaaS Offerings
- High Availability (HA) Story
- Disaster Recovery (DR) Story
- Cloud Security
- Networking and Security
- Database Solutions
- System Architecture
- System Design and Architecture
- (IOT) – Internet of Things
- Implementation
- System Monitoring
- Docker Containers
- Micro Applications
- Design for Failure Architecture
- Website Development
- Website Deployment
- Infinitely Scalable Solutions
- Data Center Migrations to the Cloud
- Cloud Architecture
- Cloud Design
